## **PRESS RELEASE**

FOR IMMEDIATE RELEASE

### **LED LITES USA To Exhibit at Westec**

LED LITES USA, a division of Renewable Energy and Power, Inc. (OTC: RBNW), a diversified corporation with markets in energy-saving technologies of LED lighting, solar and wind energy, is pleased to announce that it will be exhibiting in booth 710 at the Westec show in the Los Angeles Convention Center, September 12–14.

Westec attracts the machining industry, a prime customer for LED lighting which provides much better lighting for precision machining. The lower energy costs of LED lighting provides an ROI on the conversion in much less time than might be imagined, the savings continuing into the future. Additionally, the lowered heat generation saves.

LED LITES USA will be demonstrating its upgraded LED ceiling panel lights, LED fluorescent tubes, and hanging LED lighting in particular. LED LITES USA will be offering

“We’re currently offering some terrific sales on our LED ceiling panel and fluorescent tube lighting,” said company CEO Donald MacIntyre. “We don’t just pass on imported LED lighting, which often has drawbacks. Our upgrades assure that our LED lighting meets the highest standards. And our custom retrofit expertise helps our customers switch to LED lighting with the greatest possible ease.”

The campaign will constantly update information on the social media sites to offer the user useful information on advancements in the LED market in general as well as LED Lites USA particular product. The company also anticipates offering discounts and games the consumer can play to win useful prizes.

Renewable Energy and Power, Inc.'s website, [www.reappower.com](http://www.reappower.com), illustrates the important services and products Renewable Energy and Power, Inc. (REAP) provides to the Green Energy market to make it competitive with fossil fuels by employing proprietary new technologies in combination with existing solar and wind-power electric generation and LED lighting. REAP functions in both domestic and international markets that are in vigorous growth stages with long-term prospects. Federal and state legislation in the United States, including many tax incentives, are driving businesses and consumers to replace older technologies with the new solar and LED alternatives offered by REAP.
